

Sergey Lookin — Design Lead / Head of Design

Profile: 12 years of experience across product design, branding, and art direction. I combine design leadership with strong hands-on expertise: building teams and processes while staying actively involved in product design, websites, visual identity, and communications when needed.

Fingular

Design Lead

Apr 2023 — Sep 2026

A global neobank operating across South and Southeast Asian markets. Led the entire design function, combining team leadership and art direction with hands-on work on key projects.

- Scaled the design team from 2 to 10+ designers and established hiring, onboarding, design reviews, and delivery processes; increased delivery speed by approximately 3× and reduced design iterations from 5–8 to 1–2
- Led product and marketing design, branding, visual identity, and two design systems across 15+ brands
- Designed product interfaces, UX/UI, websites, and landing pages, and developed visual concepts, brand identities, marketing materials, and presentations
- Worked directly with product, marketing, and engineering teams — from problem definition and concept development through final design and launch

Choise.com (ex-Crypterium)

Designer

Apr 2021 — Apr 2023

An international Web3 ecosystem with 750,000+ users across 170+ countries.
Worked through the Crypterium → Choise.com rebrand and the launch of new business directions.

- Contributed to the development and rollout of the new Choise.com visual identity
- Designed UX/UI for websites and digital products, and built design systems and component libraries
- Created marketing communications, launch materials for the CHO token, and the visual concept for the NFT direction
- Developed investor presentations and creative assets for international advertising campaigns

Veonix

Art Director

Feb 2015 — Mar 2021

A design studio working with Sberbank, Gazprom, Rosneft, Lukoil, McDonald’s, Kaspersky, Rosatom, Beeline, METRO, SIBUR, and other major brands.

- Led a design team of 10+ people, covering art direction, task setting, design reviews, and quality control
- Personally developed key creative concepts, visual identities, websites, advertising materials, and presentations for major clients
- Worked directly with client teams, translating business objectives into visual concepts and scalable design systems
- Delivered 200+ projects during my time at the studio; the team grew from 5–7 to 50+ specialists
